DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12-6-10 has been entered.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 19, 30 and 32-37 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 19 now includes redundant language wherein applicant has stated in multiple recitations that the “strip is diagonally mounted on said breast cup to extend inside said breast cup. “ The same recitations are in lines 6-7 and in lines 9-10.

Applicant can correct claim 19 beginning in line 3 to read as follows:

“...at least one strip of stretchable material, comprising a loosely located inner strip, which is attached at one end to an upper part of said cup and attached at a lower end to said breast cup wherein said strip is adjustable in length and is adapted to support at least one breast, wherein said strip is diagonally mounted on said breast cup to extend

Art Unit: 3765

inside said breast cup from an upper attachment end to a lower cleavage attachment end and configured to pull the breast, in use, upwardly and inwardly towards the cleavage of the breasts." Applicant's lines 6-7 are redundant and the claim should clarify that the strip extends from an upper breasts point to a lower cleavage area point. Throughout claim 30 there are multiple limitations of "in use" which is confusing. It appears that applicant can amend the claim to clarify that the limitations all perform in use by only using the term in a single occurrence so as to avoid confusion. IN claim 32 line 2 the recitation of "shaped inwardly" needs to be defined in regard to the plane that it is shaped inwardly of such as in the direction of the center of the breast area of the wearer and not inwardly towards the skin surface of the wearer. Claim 33 needs to also state that the sling has ends that are shaped inwardly towards the center of each breast to have curved ends. IN clam 35 the plane of the diagonal mounting or incline needs to be clarified such that it is defined as being included or diagonally directed towards the cleavage area of the wearer and not towards the skin surface of the wearer.

Claims 19, 30 and 32-37 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

None of the cited references, alone or in combination, disclose the sling as being attached from the upper outer point to the lower inner cleavage point of the cup and wherein the sling is stretchable as in claims 19, 30 and 32-37.
